

ACTS OF BRAVERY MAY BE REWARDED

There is a probability that the two young sons of Frank Hustace who saved the lives of two members of the Pacific Squadron from drowning during the week at Waikiki, may receive some form of recognition from the United States government for their acts of bravery. It is rumored that Admiral Glass may recommend the young men for some recognition by medal or otherwise.

Excursion to Volcano.

The most attractive excursion to the Volcano ever yet offered by the several companies interested is advertised for June 21st, going by one steamship route and returning by another, covering seven days, at a total cost for all necessary expenses of only \$65.00. Already nearly a score of school teachers have booked for the trip, and the prospects are that before the sailing date all available upper deck space on the steamers will be taken. While the excursion is arranged especially for teachers, and the low rate made for their benefit, yet it is not to be restricted solely to them, and a few others desiring a good and cheap trip to the Volcano will be booked. The bookings and reservations are being made at the office of Richard H. Trent, general agent, 938 Fort street.

ANOTHER GERM-DESTROYER.

Herpicide is Death to Dandruff Germs.

The germ burrows into the scalp, throwing up the cuticle in thin scales, called dandruff, or scurf, and digging at the root of the hair where it saps the hair's vitality. First comes brittle hair, then lusterless and dead-like hair, then falling hair, and, finally baldness. Nineteen-tenths of the hair troubles are caused by dandruff. Without dandruff, hair will grow luxuriantly, as nature intended. "Herpicide" kills the dandruff germ leaving the hair to grow unhampered, as it does with the American red man. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Your Eyes

Your eyes are of more value than your dollars.

If you subject them to the wearing of improperly fitted glasses, you are sacrificing their interests for the benefit of the latter.

Spare the dollar and spoil the eyes is poor economy.

Prudence would suggest that you have them carefully examined and the lenses ground to suit the eye. They are the best and cheapest in the end.
